Office Action Summary

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 29, 43-59 and 60-61 are rejected under 35 U.S.C. 102(b) as being anticipated by Kidd.

Kidd discloses in figures 1-7 a fastener comprising a locator 74, an adjustable connector 76, a first attachment means 64, a second attachment means 64, a complimentary connector 58 that is a lip, a hook 76, disposed on the connector, at least one extension member (one of the outer ends of 12), first arch 12, a second arch 14 and a method of using the device. The first and second attachment means are adjustably attached (they are adjustably fasten into the opening)

Allowable Subject Matter

Claims 30-42 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. No additional prior art was cited during the first office action.
